What Is A TrustWell® Rating?

A TrustWell® Rating is the most robust mark of quality and achievement in oil & gas operations, risk mitigation, and environmental responsibility, utilizing our company's core values of:

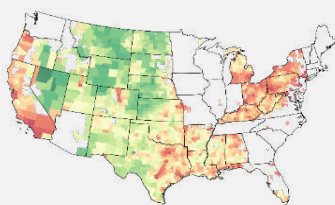

Independence: Independent company. Leading experts in engineering, responsibility, and stakeholder engagement.

Intelligence: Robust, engineering, and performance-driven approach. Developed through iteration with numerous industry clients.

Integrity: Diverse engagement from numerous credible stakeholders.

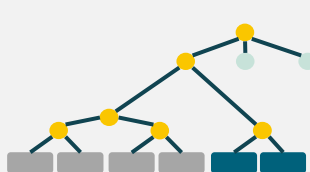

The schematic below provides a high-level overview of the rating process and TrustWell's analytics platform and capabilities.

Inherent Profile

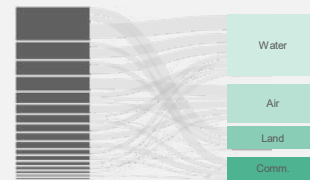

Inherent risk and impact profile of the facilities.

Control Measures

Strength of a company's specific practices.

Performance

Performance driven scoring, across range of factors.
